

Name: _____ Date: _____ Score: _____

Simplify the fraction (hint: some fractions may already be in their simplest form!)

1). $\frac{4}{5}$

<input type="checkbox"/>	$\frac{5}{5}$	<input type="checkbox"/>	$\frac{4}{5}$	<input type="checkbox"/>	$\frac{8}{10}$	<input type="checkbox"/>	$\frac{4}{6}$
--------------------------	---------------	--------------------------	---------------	--------------------------	----------------	--------------------------	---------------

2). $\frac{4}{12}$

<input type="checkbox"/>	$\frac{1}{4}$	<input type="checkbox"/>	$\frac{2}{3}$	<input type="checkbox"/>	$\frac{1}{3}$	<input type="checkbox"/>	$\frac{4}{13}$
--------------------------	---------------	--------------------------	---------------	--------------------------	---------------	--------------------------	----------------

3). $\frac{2}{4}$

<input type="checkbox"/>	$\frac{1}{2}$	<input type="checkbox"/>	$\frac{2}{5}$	<input type="checkbox"/>	$\frac{1}{3}$	<input type="checkbox"/>	$\frac{2}{2}$
--------------------------	---------------	--------------------------	---------------	--------------------------	---------------	--------------------------	---------------

4). $\frac{4}{12}$

<input type="checkbox"/>	$\frac{1}{3}$	<input type="checkbox"/>	$\frac{4}{13}$	<input type="checkbox"/>	$\frac{1}{4}$	<input type="checkbox"/>	$\frac{2}{3}$
--------------------------	---------------	--------------------------	----------------	--------------------------	---------------	--------------------------	---------------

5). $\frac{1}{2}$

<input type="checkbox"/>	$\frac{2}{4}$	<input type="checkbox"/>	$\frac{1}{3}$	<input type="checkbox"/>	$\frac{2}{2}$	<input type="checkbox"/>	$\frac{1}{2}$
--------------------------	---------------	--------------------------	---------------	--------------------------	---------------	--------------------------	---------------

6). $\frac{1}{4}$

<input type="checkbox"/>	$\frac{1}{4}$	<input type="checkbox"/>	$\frac{2}{8}$	<input type="checkbox"/>	$\frac{1}{5}$	<input type="checkbox"/>	$\frac{2}{4}$
--------------------------	---------------	--------------------------	---------------	--------------------------	---------------	--------------------------	---------------

Answers

1).

$\frac{4}{5}$

$\frac{5}{5}$

$\frac{4}{5}$

$\frac{8}{10}$

$\frac{4}{6}$

2).

$\frac{4}{12}$

$\frac{1}{4}$

$\frac{2}{3}$

$\frac{1}{3}$

$\frac{4}{13}$

3).

$\frac{2}{4}$

$\frac{1}{2}$

$\frac{2}{5}$

$\frac{1}{3}$

$\frac{2}{2}$

4).

$\frac{4}{12}$

$\frac{1}{3}$

$\frac{4}{13}$

$\frac{1}{4}$

$\frac{2}{3}$

5).

$\frac{1}{2}$

$\frac{2}{4}$

$\frac{1}{3}$

$\frac{2}{2}$

$\frac{1}{2}$

6).

$\frac{1}{4}$

$\frac{1}{4}$

$\frac{2}{8}$

$\frac{1}{5}$

$\frac{2}{4}$
